15. Provisional results will be published as soon as possible following the end of the event.
16. Any protest must be lodged in accordance with Motorsport UK Regulations.
17. Starting order will be as shown in the Programme. Cars will start singly. A green light indicates that the driver may start in his own time. The electronic timing apparatus is activated by the vehicle breaking a light beam. Competitors are reminded that a timing strut in accordance with the Motorsport UK Yearbook is required. The finish line will be indicated by black and white chequered boards on either side of the Course.
18. **Practice:** Competitors will be given the opportunity of at least two practice runs (unless a championship specifically foregoes this opportunity in favour of substituting one of the designated practice runs as a timed competitive run) and the opportunity to walk the course prior to the start of Practice.

In the event of 'force majeure' the Clerk of the Course may determine a different procedure which will be notified to all competitors via the paddock tannoy system, notice board or both.

19. Competitors will be identified by competition numbers (as defined in accordance with Motorsport UK regulations or as agreed by the Chief Timekeeper) displayed on both sides of the car. **A third set of numbers which can be smaller should be displayed on the front left of the car to assist the timekeepers in identifying cars approaching the start line.** Numbers may be purchased at the paddock office. When two drivers compete in the same car, two sets of suitable numbers must be provided by the entrant and changed as necessary. Cars will not be permitted to run with two sets of numbers displayed at the same time.
20. Cars running in road going classes must compete in a road legal condition. Competitors must be able to produce proof of current road tax, insurance and MOT certificate. Proof of road tax will be via taxation receipt or vehicle enquiry printout using the DVLA enquiry website. Competitors will also be required to provide the vehicle registration number of the car on the entry form. Tyres must comply with S.11.6.2. List 1a or List 1b.
21. **Reserves:** Entries which are accepted as reserves will be so indicated on the provisional entry list, together with the order in which they may be brought in to replace non-starters from amongst the competitors listed in the printed programme. The number of reserves to run in the event will be notified by the conclusion of practice. All reserves will be given practice and those who are not brought in to run in the event will be made a refund of the entry fee paid less £60.00.
22. **Noise:** All vehicles must meet the silencing levels set out in Motorsport UK Technical Regulations, except for period defined cars in groups A to H and cars running in special, historic or invitation classes that are allowed, at the absolute discretion of the Clerk of the Course. Competitors are also requested to minimise revving of engines in the return road when descending the hill and to refrain from running engines in the Paddock after the end of the meetings. Under no circumstances may engines be started in the paddock before 8.45am (except road legal cars). The Environmental Scrutineer will be the judge of fact in noise related matters and may request additional testing of any car suspected of creating excessive noise

23. **Start Area:** The entry to the area is defined by the Pre-Start Line. Once this line is passed, a car will be deemed to be under starter's orders. No more than two people in addition to the driver and officials may attend each car in the identified start area. In the interests of safety, any cleaning of tyres must be carried out **below** the Pre-Start Line, and wheels may only be spun in the designated area. For the avoidance of doubt there are two lines that define the area between which tyre spinning can start and must finish.
24. **Tyre Spinning:** May only be carried out between the two designated spin lines. If a driver stalls his engine, he will not be permitted to spin the wheels again until the car reaches the point at which the stall occurred.
25. **Start Procedure:** On arrival at the Start Line with the engine running, the rear wheels will be chocked, and the driver will be expected to commence his run immediately when the red light changes to green. A car will be deemed to have started when the vehicle, by breaking the beam, starts the electronic timing apparatus.
26. **False Starts:** If a competitor makes an unsatisfactory start, provided that neither of the rear wheel centres has crossed the Start Line, he may be permitted to re-start. If, however, the car stops due to mechanical failure and cannot be immediately re-started, it must be removed as directed by marshals. Unless it can be returned to the Start Line within two minutes, a re-start will not be permitted. Judges of Fact will be on the Start Line to determine whether a false start has been made, and a re-start allowed.
27. **Flag Signals:**
  - Ascending:** A Red Flag means STOP as soon as practicable and await further instructions from the Marshals.
  - Descending:** No flags will be shown but speed must be moderated. A Red flag will only be shown in an emergency, if shown it means STOP as soon as practically possible and await instructions.
28. **Return to Paddock:** After each batch is completed, cars will return down the hill on the signal from the Finish Paddock Marshal. Under no circumstances will a car that is descending the hill overtake or stop for any reason other than as outlined in paragraph 27 above. It is particularly important that cars do not stop in the first section of the Return Road between Triangle and the Church. This prevents following cars from coasting back to the Paddock and is the major cause of delay in batch changeovers. **It is imperative for public safety that you keep your speed slow when entering the paddock.**
29. **Target times:** Target times will be assessed after practice for each event, based on a competitor's known performance or practice times. If any competitor improves on his target time by more than 5% that time will be excluded from the meeting's results.
30. **Ties:** In the event of two competitors tying for an Award, the competitor with the lowest Aggregate times will be the winner. If the result is still a tie, the Stewards of the Meeting shall decide on a suitable solution.
31. Championships will be run in accordance with the Regulations issued for the individual championships.
32. **On Board Cameras:** Vehicles can only carry cameras if authorised by the Chief Scrutineer and Event Organiser in accordance with Motorsport UK regulations. Mountings will be closely inspected. Please advise the scrutineer at the time of inspection.
33. Electric and hybrid cars are not permitted until further notice. Commercial vehicles are allowed subject to the approval of the Chief Scrutineer.
34. No Trailers, motorhomes or support vehicles will be allowed into the Paddock whilst the meeting is in progress.
35. All other Motorsport UK General and Technical Regulations apply as written. All references are to the 2020 edition of the Motorsport UK Yearbook
