

## Curborough sprint, 20 May 2018

Organised by MAC and using the figure of eight layout, this was an invitation event for us. Three drivers arrived on a warm, bright and sunny day looking forward to enjoying the cars. In addition to Jan Nycz and Mike Wood, Steve Lawrence had brought out his trusty Mk VIII Cooper for nephew Jonathan.

Practice was largely uneventful, Jan setting the pace with Jonathan quickly learning the route. Mike experienced some miss-fires due to plug oiling and so was a little behind.

When the event runs got underway just after lunch, it was Jonathan that started best, taking over three seconds off his best practice time. On the final run of the day, Jan found a little more time but still not enough to catch the flying Cooper.
